

**NATIVE ROOTS
FARM FOUNDATION**

**We can't lose
another family farm.**

EVERY HOUR, DEVELOPMENT DESTROYS 175 ACRES OF PRECIOUS AMERICAN FARMLAND.

We're fighting to protect open space, nourish the community, and celebrate Native American roots in Lower Delaware through:

PUBLIC GARDEN

A tranquil 10-acre educational space showcasing native plants and their significance to local Native American tribes.

SUSTAINABLE FARM

50 acres dedicated to feeding the community and rebuilding the natural agrarian environment using principles of regenerative agriculture.
